

Braxtel Communications Announces New and exciting Partnership with Epygi

Melrose, Massachusetts, and Winter Park, Florida, USA, (10/30/2019) – Braxtel communications, a worldwide provider of Multi media Contact Center solutions, is excited to announce their partnership with Epygi a provider of Cloud or premise based IP PBX platforms.

Both companies have tested and confirmed that both the feature-rich Epygi QX IP PBXs, which provides enterprise functionality, twinned with SMB pricing and Braxtel's Contact Centre application suite, ContactQ make a perfect combination and offer global partners with a real choice in both cloud, premise or hybrid based deployments.

Contact Q ensures a great end-to-end customer experience across all forms of contact while helping to lower costs. It allows to seamlessly connect business applications with the communications infrastructure to help companies achieve enhanced customer sales and service transactions.

"We can't wait to get to market with Epygi. By combining our technologies, we are able to attack vertical markets being neglected by incumbent vendors. Both existing Braxtel & Epygi partners will benefit from these uniquely innovative solutions and we already have large distributor's selling both platforms", said Nick Thwaites, CEO of Braxtel.

About Braxtel

Founded in 1997, Braxtel Communications provides comprehensive customer contact center solutions that enable organizations to more easily, effectively and economically manage their customer interactions inbound or outbound across multiple channels, including phone, email, social media and SMS. In December 2002 Braxtel was acquired by Homisco, Inc. an established telecommunications supplier of hardware and software solutions for a variety of vertical markets including the Hospitality sector. Braxtel delivers all its products and services exclusively through a network of worldwide business partners and invests extensively in this global Channel strategy.
